My name is Sergey. I am thirteen years old. My favourite season is summer. In August I had a rest in the camp .I had a great time by the lake.The timetable of the camp activities was very interesting and various. I made new friends in the camp and learnt much. My friends and I enjoyed playing different sports games such as football ,volleyball, ping-pong. I think that going in for sports isn't only enjoyable, but useful,too. Sport makes us healthy and fit. While the weather was sunny we sunbathed and swam in the lake every day. On Tuesday we climbed the mountain. It was exciting! I took a lot of photos. When the weather was rainy and windy we usually stayed in our cabins and played computer games or sang songs to karaoke or watched TV. There wasn't any boring day in the camp.
